This is much less frequently visited than the nearby Pyrites Circuit. It does use quite a few mountain bike trails, but they are not overly damaged or rutted. BASE CAMPS AND PACK CARRIES

Day		Type	Activity Title	Walk Gr	Km	Locality	Travel Km	Dir	Leader Given Name
Mon - Fri	**21-25 Sep**	**BC**	**Dimboola**	**E-EM**	**Var**	**Wimmera**	**350**	**NW**	**Fran**
This is the base camp rescheduled from September 2025. Little Desert National Park is slowly reopening after the summer fires. Despite its name, Little Desert in springtime is full of native flora, with hundreds of different species ranging from orchids to guinea flowers to blue stars. The vegetation consists mainly of mallee eucalypts, banksia and tea tree with a heathy understorey. Over 200 species of birds have been recorded as well as possums, western grey kangaroos and of course snakes. So far there are no recorded sightings of leeches there. Let's hope some of this has survived the fires. We will walk some of the Wimmera River Trail which is now finished, visit the Kiata Sanctuary and the Keith Hateley Reserve, scale Mt Pomponderoo, see the Pink Salt Lake and walk the Charcoal Track/Eagle Swamp Circuit. The walks will probably finish early in the afternoons so there may be time to visit some of the towns in the area with silo art. Accommodation will be in the Riverside Holiday Park in Dimboola.									
Mon-Fri	**5-9 Oct**	**PC**	**Northern Section Grampians Peak trail**	**MH**	**51**	**Grampians**	**265**	**W**	**Nicola**
Travelling on the Monday we plan to camp in Halls Gap that night before taking a 9am shuttle on Tuesday morning to Mount Zero. Day 1 Mount zero to Barigar 12.6km. Day 2 Barigar to Gar camp with a possible summit of Gar if people feeling energetic 11.3km plus extra for summit climb. Day 3 Gar to Werdug 14.3km. Day 4 Werdug back to Halls Gap 12.7km with a visit to a cafe before the drive back to Melbourne. This is classed as a moderate hike over 4 days but involves sustained hiking over rugged stone slabs and prominent ridge lines with spectacular views. Hiking poles recommended as there are some big steps on the descent from Werdug back to Halls Gap. Hikers must be prepared for wet weather, foggy conditions and possible cold nights...it is Spring in Victoria after all. There will be cost for the shuttle service to the start of the hike day 1 and the cost per site each night is $53.30 split between 2 people. Looking to have a group of 6 for this trip but could manage 8 if there is sufficient interest. Will want to book ahead of time to secure dates. Please contact Nicola if you have any questions as she has hiked this twice already.									
Mon - Thur	**12-15 Oct**	**BC**	**Numurkah**	**E-EM**	**Var**	**Goulburn**	**220**	**N**	**Fran**
This base camp is timed to coincide with the Archibald Prize showing at the Shepparton Art Museum. Prebook tickets to visit on the way up. Stay at the Numurkah Golf Club cabins. Short walk in the afternoon on day one in Kinnairds Wetland which is part of the Murray Water management system, has lots of birds and wildlife and some grand old river red gums. There will be one day walking along the Murray in an area with sandy beaches and billabongs amongst the river red gums. In the Barmah National Park there are many different trails showing the indigenous history of the area, the timber industry and the cattle industry which finally ended in 2010. This has allowed significant recovery of the native plants and animals. We may be lucky enough to see some of the 38 species of rare plants, and the superb parrot, which although it is endangered, has recovered to a healthy population in this park. This part of Victoria is quite flat, but has an interesting history and lots of lovely trails. Visit the Shepparton Botanic Gardens on the way home on the final day. The cabins do not have kitchen facilities, just microwave, toaster and kettle, so we will be eating out for 3 nights. Please sign up ASAP as the golf club is very busy and cannot hold the block booking for long.									
Sun-Thur	**8-12 Nov**	**PC**	**Howitt-Viking-Wonnangatta Circuit**	**H**	46	**Greater Alpine**	**323**	**W**	**Robyn**
This multi-day trip is rated hard due to the number of ascents and descents (including the Zeka track up from the Wonnangatta valley to Howitt, around 1,000m ascent) and potential of adverse weather, rock scrambling. The walk will involve walking over the Crosscut Saw and the Viking however there will be spectacular views to enjoy and hopefully camping on Mt. Speculation to view sunset and sunrise. There will be a limit of group size to 6.									
Sun-Sun	**30 Nov - 6 Dec**	**PC**	**Jagungal Wilderness Kosciuszko**	**M**	**90**	**New South Wales**	**500**	**NE**	**Michael**
A return to the Jagungal area of Northern Kosciuszko, this time heading south from Round Mountain along the Alpine Walking Track as far as Valentines Hut then cross-country to Mawsons Hut. Return via O'Keefes Hut and Farm Ridge Track. Climb Mt Jagungal. Camping by huts each night. Fairly relaxed and moderate walking for six days in the rolling alpine environment, plus a day to drive up and a day to drive back. A number of creek/river crossings. Maximum 8 people.									
10 Days	**19 - 29 March 2027**	**BC**	**Maria Island, Bruny Island, Freycinet, Cape Raoul**	**EM-M**	**Var**	**South East Tasmania**	**900**	**S**	**Jan and Carmel**
We have 8 confirmed walkers in the group for March. There are a few more places available however some accommodation has been booked so we need to confirm numbers ASAP. Some accommodation on Bruny Island, and all accommodation on Maria Island, is comfortable bunks. On Maria Island, we need to carry in all bedding and food. We will also be walking Cape Raoul and a section of the Freycinet peninsula. Expect some beautiful scenery. Because of accommodation constraints, we need to close walk bookings by 24 August.
